THE STONE

BRAND POSITIONING

**Owners of the source.
Masters of precision.
Exporters of excellence.**

Quarry owned · Precision processed · Globally supplied

Imperial White
Natural Granite

MATERIAL DNA

Imperial White is defined by its pure white background, refined grain structure, and exceptional visual calm.

A rare colour granite chosen for architectural spaces that demand clarity, balance, and timeless restraint.

ABOUT US

God Granites, established in 1988, is a leading Indian quarry owner and processor of high-quality granite slabs and tiles. Promoted by **Mr.B. Venkatesh** and **Mr.B. Shakthivel**, who has over 40 years of industry experience, the company exports globally to Europe, the Middle East, and other international markets. With its own quarries in Tamil Nadu and Karnataka, God Granites offers premium varieties such as Imperial White, Premium Black, and Red Multicolour.

Imperial White Granite is the flagship product of the company, with exclusive bulk production from one of the world's largest Imperial White granite quarries. Known globally for use in major projects, it offers exceptional strength, scratch resistance, and long-lasting durability. With a monthly production capacity of 2000–2500 CBM, the company can supply large quantities of polished, flamed, or honed slabs and tiles for international projects. Its bright white tone enhances interiors and exteriors, creating elegant, clean, and visually soothing spaces.

DESIGN POSITIONING

Imperial White belongs to a category of materials that do not follow trends.

Its neutrality allows it to adapt across styles, scales, and geographies — making it a reliable choice for long-term architectural projects.

TECHNICAL PROFILE

Specification Confidence

CONTROL BEGINS AT ORIGIN

Imperial White is sourced from quarry sites owned by GOD GRANITES in Tamil Nadu, India.

Direct ownership ensures long-term availability, consistent block quality, and complete control from extraction to export.

QUARRY SCALE & CAPABILITY

Long-Term Assurance

The Imperial White quarry extends across approximately 100 acres of patta land with extensive sheet rock formations.

With an average monthly production capacity of approximately 600 m³, the quarry is capable of supporting large-scale and long-duration projects.

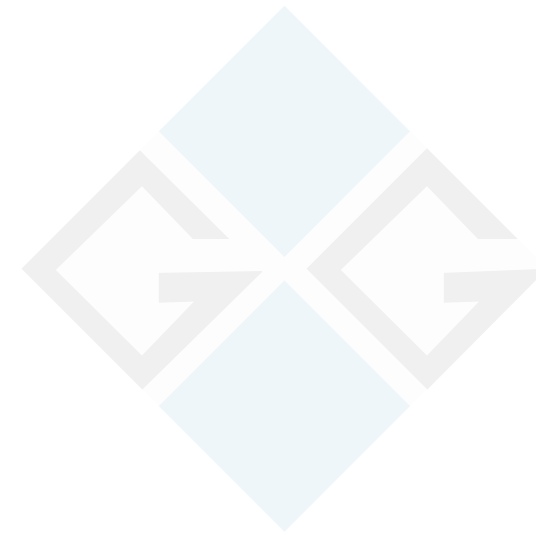

PROCESSING & PRECISION

International Standards

Processing is carried out at our dedicated facility near Hosur, India — often referred to as “Mini Carrara”.

Advanced Italian machinery and experienced craftsmanship ensure consistent quality across slabs, tiles, and cut-to-size materials.

Gang saw cutting · Precision polishing · Cut-to-size processing

QUALITY CONTROL & CONSISTENCY

Reliability by Design

Quality control is integrated at every stage of production and directly supervised by the partners of the firm.

From block grading and shade matching to final inspection prior to dispatch, consistency remains uncompromised.

MAJOR WORKS & PROJECT TYPES
